

SURETEK INFOSOFT

CASE STUDY

ONLINE ASSESSMENT OF JOB APPLICATIONS

CLIENT PROFILE

Our Client is a reputed Visionary Entrepreneur, having a team of professional job application reviewers from different industries for assessment of job applications.

CLIENT SIDE SUMMARY

The Client wanted a web application where job seekers will upload their job application and pay for the assessment. A professional reviewer will be assigned for the assessment based on the profile and industry of the job application. There will be different standards and methods based on which the assessment will be done. Once the assessment will be completed the job seeker will be able to see the assessment done by the reviewer by logging in his/her account.

THE CLIENT

Client: Visionary Entrepreneur | **Location:** Sweden | **Industry:** E-Commerce

SURETEK SOLUTION

Suretek came up with an accurate software solution that perfectly matched the clients' needs. The features on the site include:

- An attractive Wordpress Theme
- User, Reviewer and Admin panel based on according to their role.
- Business Promotion and Campaign and Send Newsletters (**Using Mailchimp**)
- Two different Payment Gateway Integration (**Payson and Paymill**)
- Affiliate Tracking Program (**Using LeadDyno**)
- Share assessment result on Facebook and LinkedIn. (**Using API's**)
- Better GUI using **Bootstrap** components and CSS.
- Charts & Reports to analyze the growth of the company.

TECHNOLOGIES USED

Wordpress, PHP, MySQL, Ajax, jQuery, JavaScript, Mailchimp API v2.0, Bootstrap v3.0, Morris Charts.
