SURETEK SOLUTION

Suretek developed a perfect Website catering to the requirement of the client. The website is sectioned according to the courses, Faculty, Immigration and Career assistance, a separate section for the registration of new students as well as the maintenance of the current students, Blogs, and University Events. It maintains a database record for the registered as well as the students that seek admission in some future time. It also provides a means for the students to pay their university fees through a payment medium.
